Gian Kyle F. Laguerta

Mahabang Parang, 1930, Angono, Rizal | 09355361088 | kylelaguerta989@gmail.com | LinkedIn

Education

POLYTECHNIC UNIVERSITY OF THE PHILIPPINES | BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY | JUNE 2019 - MARCH 2024

Experience

Ground-Link Advertising Services   **Quezon City, Metro Manila**

Junior Web Developer   **April 2024 - Present**

- Identify and fix bugs in the codebase, ensuring smooth website and application performance across various browsers and devices.

- Participate in Agile processes, including sprint planning, daily standups, and retrospectives, to deliver features on time.

- Manage and track code changes using Git, collaborating with team members through pull requests and code reviews.

- Address urgent fixes and implement additional features based on client requirements, ensuring timely delivery.

Skills

Programming Languages:	Javascript, PHP
Frameworks:	VueJS, ReactJS, Laravel, NodeJS, Quasar, NestJS, Tailwind CSS, Express
Version Control:	Git
Other Tools:	HTML, CSS, Scss, Zustand, Socket.IO, Pinia, Axios, Postman, Laragon, JSON Web Token
Database:	MySQL, MongoDB, HeidiSQL

Projects

ONE HEALTH | MERN, TAILWINDCSS, SOCKET.IO, ZUSTAND, FULLCALENDAR, REACT-PDF, QRCODE.REACT, REACT-QR-SCANNER, RECHARTS, CLOUDINARY, JWT, Axios | GITHUB LINK | DEMO LINK

- Developed both frontend (ReactJS) and backend (NodeJS, Express) components following the MVC design pattern.

- Integrated Socket.IO for real-time tracking of patients flow.

- Managed state using Zustand and designed UI with Tailwind CSS.

- Implemented features such as scheduling with Fullcalendar, generate PDFs using react-pdf, generating and scanning of QR Code using qrcode.react and react-qr-scanner.

- Utilized recharts for data visualization and cloudinary for image management.

- Ensured security by protecting API routes using JWT.

WEB PORTFOLIO | REACTJS, TAILWINDCSS | GITHUB LINK | DEMO LINK

- Responsive Website that displays my projects and skills.

POKEDEX | REACTJS, TAILWINDCSS, AXIOS | GITHUB LINK | DEMO LINK

- Pokedex is a website that is based on game called Pokemon. This app displays every Pokemon and their details with the use of PokeAPI.
